Microsoft Imagine Program

Imagine Program Overview

Imagine FAQs

Downloading Imagine software

Installing Imagine software

Microsoft software for academic use is offered through the Imagine Premium program (formerly Dreamspark/MSDNAA).

Imagine Premium is an annual membership program that provides an inexpensive way for students and faculty in the technology and design fields to get the latest software they need for academic use only.

The Sawyer Business School, in partnership with Microsoft currently offers this service to students and faculty in the Information Systems and Operations Management (ISOM) department. The membership enables them to get the latest Microsoft software on their computers.

In addition, students in the department will have complete access to these tools for use on their personal computers. Only departments teaching technology disciplines are eligible for this program.

We currently offer free, direct download for students through the Kivuto License Management System.
