Online chat schedule and registration information

Priority registration

Priority registration is a time designated by Suffolk University to allow students the opportunity to register for courses without making an initial deposit. Once the period is over, the Student Accounts/Bursar's Office will mail out tuition bills to students.

The Online Program has reserved 2 weeks prior to the University priority registration exclusively for online students to register for online courses.

What does this mean to you?

It means that you can register for an online course without the worry or concern of a course filling up. It is highly recommended that you use the exclusive priority period for online students and register for course(s).

After the first two weeks, online courses will open to the rest of the campus community with the exception of SBS 600, MBA 780 and MBA 800. You may continue to register for online course, however, please note that online courses are popular among campus students and they may fill up quickly.

MGES 843 W

Course Title: Business Opportunities Using Design Thinking and Biomimicry

Course description: Ever wonder what great breakthroughs are on the horizon to improve business thinking, processes, products, and services? If you have, this course is for you. We will learn about how businesses are using principles of design thinking and biomimicry to create entirely new ways of meeting the challenges of modern business—those are, needs to reduce costs, increase revenues, minimize waste & energy use, maximize novel approaches, & meet consumer and business needs. You may recognize the term “design thinking” if you are a follower of Apple, Inc. which has used this process in the development of all of their products and services over the past 15 years. Biomimicry principles are those that seek their inspiration from nature—after all, nature has been problem solving for 3.8 billion years, surely there is something to learn from this to be adapted to solving modern challenges. The course will be both conceptual and practical with various experiential learning opportunities.

Prerequisites: None.
