

Connecting to Suffolk University's wireless WPA2 networks on Android

This Quickstart Guide will help you to connect to WPA2, Suffolk University's secured wireless Network for faculty, staff and students. Students will need their Suffolk username and password to access **SU_Student_WPA2**. Faculty and staff must use their Suffolk desktop username and password to access **SU_Staff_WPA2**.

University Computer Policy

 Suffolk University computing resources referenced by this document are bound by the [University Acceptable Use Policy](#).

Step 1

Go to *Settings* and select **Wireless & networks**

Step 2

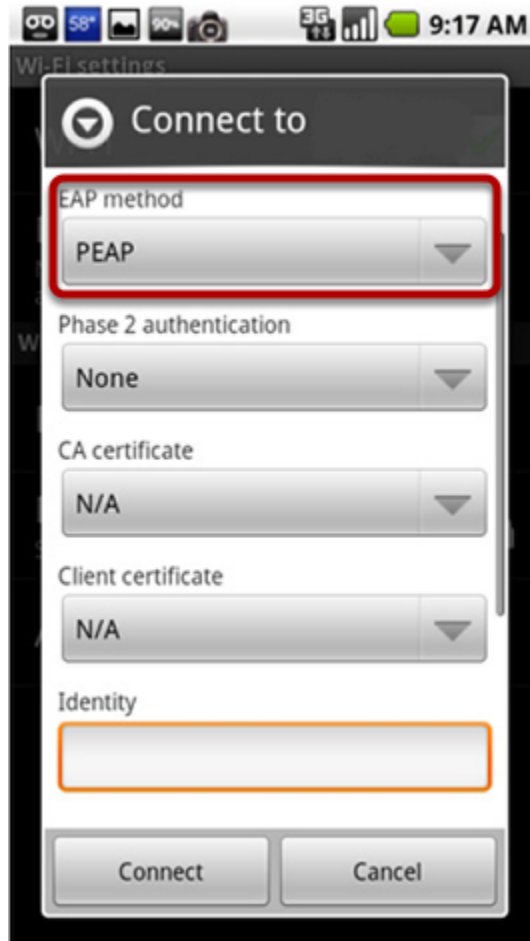

Check the box to the right of Wi-Fi and tap Wi-Fi settings

Step 3

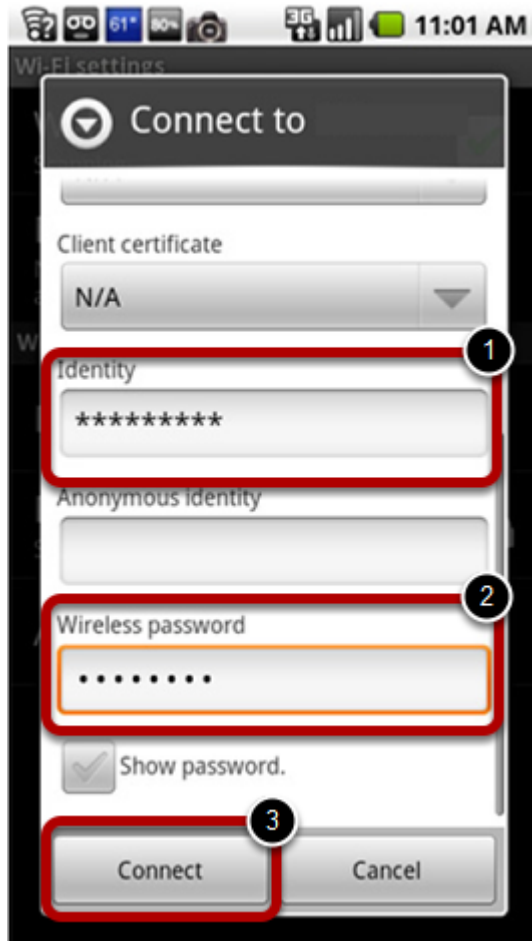

Under *Wi-Fi networks*, select either **SU_Student_WPA2** or **SU_Staff_WPA2**

Step 4

Set the EAP method to **PEAP**

Step 5

Scroll down and enter your Suffolk University username for the *Identity* field and your password for the *Wireless password* field. Then hit Connect.

Step 6

Under *Wi-Fi networks*, confirm that **SU_Student_WPA2** or **SU_Staff_WPA2** indicates it is connected. If not, select it again and hit *Connect*.

Finished!

You should now be connected to the **SU_Student_WPA2** or **SU_Staff_WPA2** wireless network.

If you are still unable to connect after following the above instructions, please contact the Help Desk at (617) 557-2000 or email helpdesk@suffolk.edu.
