Manually Connecting to Suffolk University's wireless WPA2 networks on Android LG G2X phones

This Quickstart Guide will help you to connect to WPA2, Suffolk University's secured wireless Network for faculty, staff and students. Students will need their Suffolk username and password to access **SU_Student_WPA2**. Faculty and staff must use their Suffolk desktop username and password to access **SU_Staff_WPA2.**

Step 1

At the **Home** screen click the **menu key**.
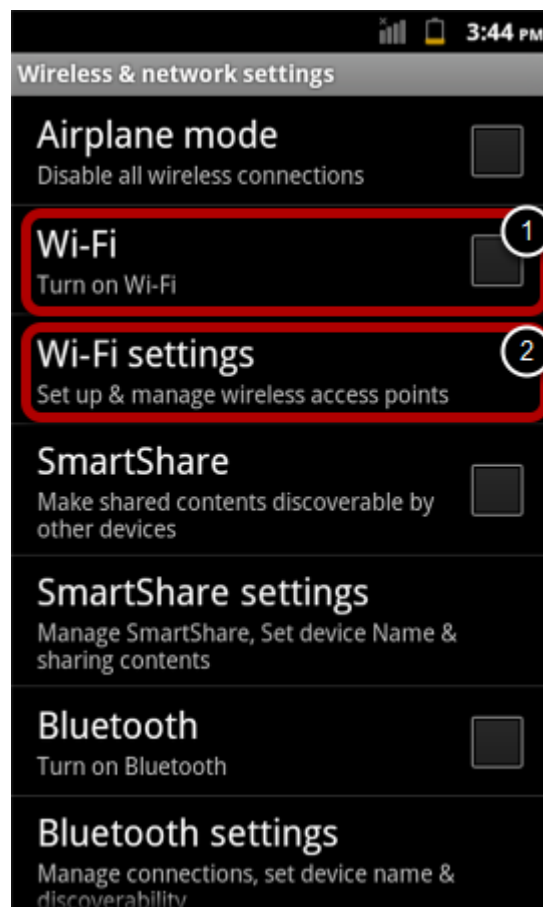

## Step 2

Select *Settings*

Step 3
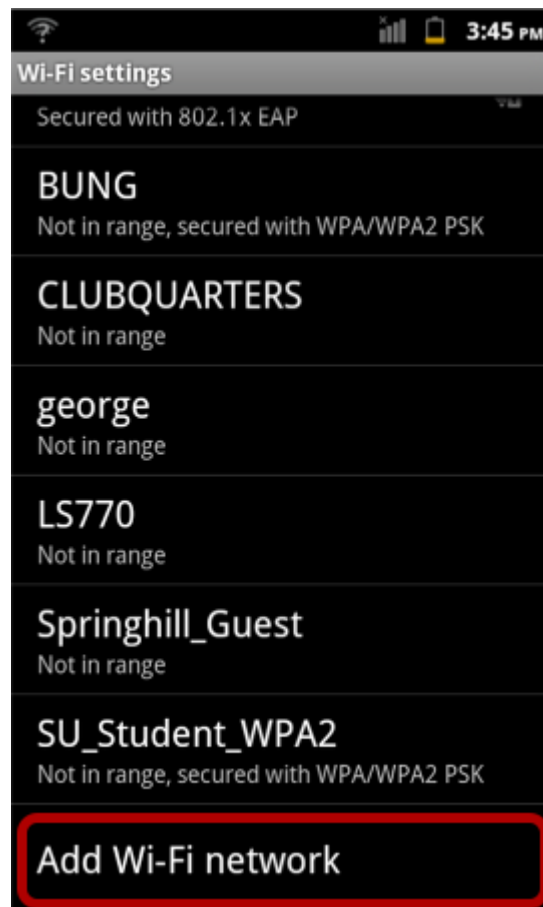

Select *Wireless & networks*

Step 4

1. Turn on **Wi-Fi**
2. Click into **Wi-Fi settings**.

Step 5

Now scroll down until you see **Add Wi-Fi network.**

Select **Add Wi-Fi network**.

Step 6

In the **Network SSID** input the either **SU_Student_WPA2** or **SU_Staff_WPA2.**

Step 7

Click the down arrow on **Security** it will bring you into the following screen below.

Choose the **WPA/WPA2 PSK** option.

Step 8

Input your email **Password** and hit **Save**.
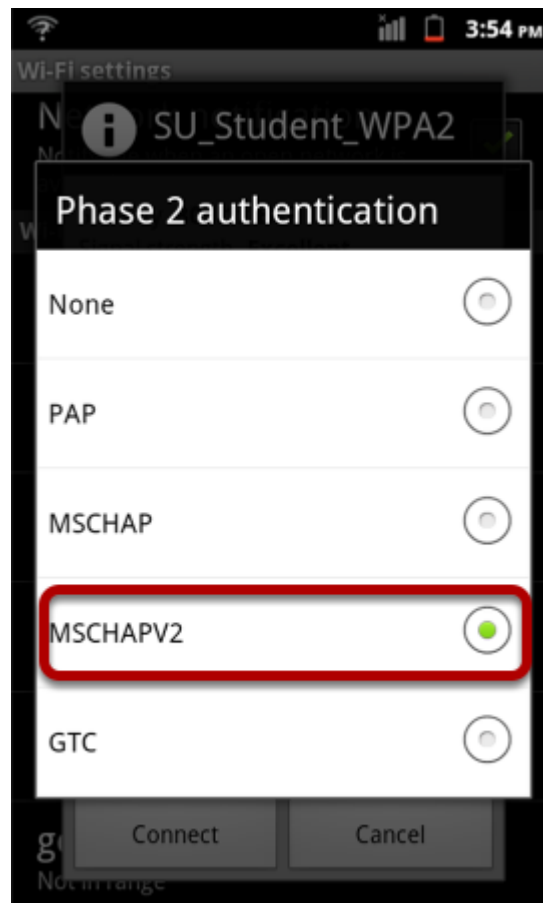

Step 9

You will be returned to the **Wi-Fi settings** screen.
Hold down on **SU_Student_WPA2** and select **Modify network**.

Step 10

Pull down the **Phase 2 authentication** menu option.

Step 11

Select the **MSCHAPV2** option.

Step 12

1. Under *Identify* enter your Suffolk University email username (without the @suffolk.edu)
2. Under *Password*, enter your email password.
3. Select *Connect* and you will return to the **Wi-Fi settings** screen.

Step 13

Select **SU_Student_WPA2** (or **SU_Staff_WPA2**) to connect and you will be connected to the wireless.

Finished!

You should now be connected to the **SU_Student_WPA2** or **SU_Staff_WPA2** wireless network.

If you are still unable to connect after following the above instructions, please contact the Help Desk at (617) 557-2000 or email helpdesk@suffolk.edu.
