How do I logon to my mailbox when I am not at my desk or calling from someone else's desk or from a multi-line phone?

Dial x3000.You are asked to enter your Security Code, Enter *# since you are not calling from your desk. You are then prompted to "Enter your mailbox number" followed by Security Code.

If you do not know your code, please contact telecom@suffolk.edu or dial x8000 for a reset.
