# Home - Emergency Management

This is the home of the Suffolk Emergency Plan.

Suffolk University recognizes its role in the community, and the importance of protecting its students, faculty, and staff in the event of an emergency. Members of the University's Incident Support Team are certified in the incident command system (ICS) by the Federal Emergency Management Agency (FEMA). The Incident Support Team meets monthly to discuss campus events, review incidents, and coordinate planning, preparedness and response efforts.

The Incident Support Team is chaired by the Emergency Manager, and is comprised of representatives from the Suffolk University Police Department, Office of the Provost, Environmental Health and Safety, Deans of Students, Risk Management, Human Resources, Facilities, Public Affairs and Information Technology.

1.0 General Policies and Procedures

2.0 Crisis Communication

3.0 Academic and Administrative Buildings

4.0 Residence Halls

5.0 Assembly Areas

6.0 Fire Prevention Plan

8.0 Additional Documentation
