

What is the SU_Guest wireless service?

SU_Guest is the open access (not secured) wireless network on campus. **SU_Guest** is available in all administrative and classroom buildings, as well as residential common areas and libraries. **SU_Guest** is intended for light web browsing for people who do not have Suffolk email or Suffolk University desktop login credentials.

If you are a faculty or staff member, or a student, Information Technology Services strongly recommend that you use **SU_Student_WPA2** or **SU_Staff_WPA2** offers exclusive wireless access to internal systems for faculty and staff with desktop logins and more secure connections to online services for students with Suffolk University accounts.
