

1.4.8.2 Biological, Blood, Bloodborne or Body Fluid Spills

- Alert all personnel in the immediate area of the spill
- Isolate the area
- Call Suffolk University Police Department (SUPD) at (617) 573-8111 or extension 8111
- Tend to the injured person(s) if properly trained. Use proper personal protective equipment
- Contact the Office of Environmental Health & Safety at (617) 573-8628 or (617) 570-4849
- SUPD or the Office of Environmental Health & Safety will notify a contractor to clean up the spill, as well as other departments or resources as needed

Exposure Incident

- Anyone having an exposure to a biological, blood borne or body fluid should vigorously wash the exposed area with soap and water for several minutes
- Employees who are involved in an exposure incident should report it immediately to SUPD by calling (617) 573-8111 or extension 8111. A report will be filed and first aid will be provided as necessary
- Anyone involved in an exposure incident should seek medical treatment if they have a concern that the exposure may affect their health
- Students who are involved in an exposure incident are encouraged to report the incident to the Office of Health & Wellness Services
- All exposures must be reported to the Office of Environmental Health & Safety at (617) 573-8628 or (617) 570-4849
